

3 pricing myths that **kill** GSA competitiveness.

01

OF FIVE

THE MYTH

~~You can just copy your commercial rates onto your GSA Schedule.~~

WHAT'S ACTUALLY TRUE

GSA requires a Basis of Award — proof your Schedule price matches your best commercial customer. Copy-pasting without an audit trail triggers modification requests and delays approval.

02

OF FIVE

THE MYTH

**~~The lower your price, the better
your chances of winning
contracts.~~**

WHAT'S ACTUALLY TRUE

Underpricing kills margins and flags proposals for compliance review. Agencies question quality on unusually low bids. Competitive pricing with clear differentiation wins.

03

OF FIVE

THE MYTH

**~~Once GSA approves your prices,
they're locked in forever.~~**

WHAT'S ACTUALLY TRUE

Price modifications are available anytime with proper justification. Most contractors don't realize this flexibility exists — and leave money on the table by assuming their approval price is permanent.

YOUR TURN

Which one almost stopped you?

Drop the pricing myth you believed when you first started.
Let's help someone else dodge it.
