

3 myths that **stall** new GovCon shops.

01

OF FIVE

THE MYTH

~~You need federal contracts on your résumé before GSA will look at you.~~

WHAT'S ACTUALLY TRUE

The MAS application is built on commercial past performance — not federal. Two solid commercial references and clean financials are what the contracting officer actually reviews.

02

OF FIVE

THE MYTH

Once you're on the Schedule, agencies will search and find you.

WHAT'S ACTUALLY TRUE

The Schedule gets you in the room. It doesn't book the meeting. You still have to market, follow contracting officers, and respond to sources sought notices to generate revenue.

03

OF FIVE

THE MYTH

~~GSA Schedule is really just for tech companies.~~

WHAT'S ACTUALLY TRUE

The Multiple Award Schedule covers professional services, construction, healthcare, staffing, office products, and more. If you have a commercial client base, there's likely a SIN for you.

YOUR TURN

Which one almost stopped you?

Drop the myth you were carrying when you first looked at the GSA Schedule.
