MYTHS EDITION

01

OF FIVE

THE MYTH

~~You need years of federal experience before you can compete for government contracts.~~

WHAT'S ACTUALLY TRUE

GSA Schedule only requires 2 years in business and demonstrated commercial revenue. Your federal track record starts the day your Schedule is approved.

02 OF FIVE

THE MYTH

~~Once you have a GSA Schedule, government buyers will find and contact you automatically.~~

WHAT'S ACTUALLY TRUE

The Schedule is a contract vehicle, not a lead generator. You still need to market, respond to RFQs, and build relationships with contracting officers.

03

OF FIVE

THE MYTH

~~SAM.gov is a one-and-done registration — you sign up once and you're set.~~

WHAT'S ACTUALLY TRUE

SAM.gov requires annual renewal. A lapsed registration freezes your ability to receive federal payments — even mid-contract, even with an active award.

YOUR TURN

Which one almost stopped you?

Drop the myth you believed when you first started looking at federal contracting.
