

3 myths that **stop** small businesses cold.

01

OF FIVE

THE MYTH

**~~You need federal contracts
before GSA will approve you.~~**

WHAT'S ACTUALLY TRUE

GSA only looks at your commercial track record. Three years of commercial revenue and solid references is enough to qualify. Federal history is not a requirement.

02

OF FIVE

THE MYTH

~~Once you're on the Schedule,
agencies will find you.~~

WHAT'S ACTUALLY TRUE

The Schedule is a vehicle, not a marketplace. It gives agencies a fast way to buy from you — but you still have to find them. Active outreach wins contracts. Waiting doesn't.

03

OF FIVE

THE MYTH

~~Any prepared company can just fill out the application and get approved.~~

WHAT'S ACTUALLY TRUE

GSA rejects roughly half of first-time applicants. Pricing errors, wrong NAICS codes, and incomplete documents are the three biggest culprits. Most self-filed attempts stall or get withdrawn.

YOUR TURN

Which myth almost stopped you?

Drop the belief you had to unlearn before you could move forward in GovCon.
